N. Y. Transportation Co. Control Un-

changed. At the annual meeting of the New York Transportation Company yesterday all the retiring directors were reelected and the management showed that it still held control of the company, though there was complaint from some of the stockholders. These men presented a motion asking the board to furnish more particulars in the financial statement. This was voted down on the ground that doing so would give information to the company's competitors which would weaken its position. A mo-tion was also presented to prevent the disposal of any of the property of the Fifth Avenue Coach Company and Park Coach Company, which are subsidiaries. Both these companies have shown a substantial increase in earnings since the instalment of motor buses. This motion also was
